

**About Us**

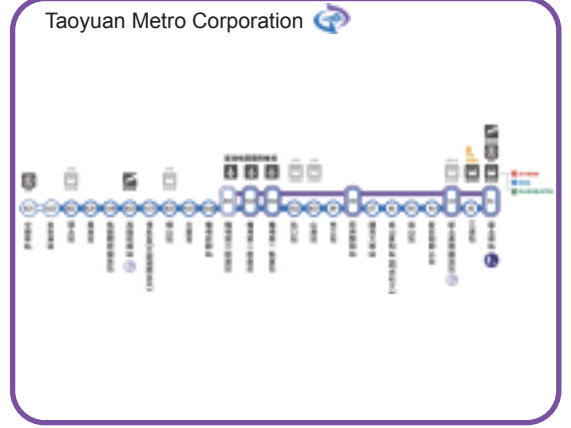

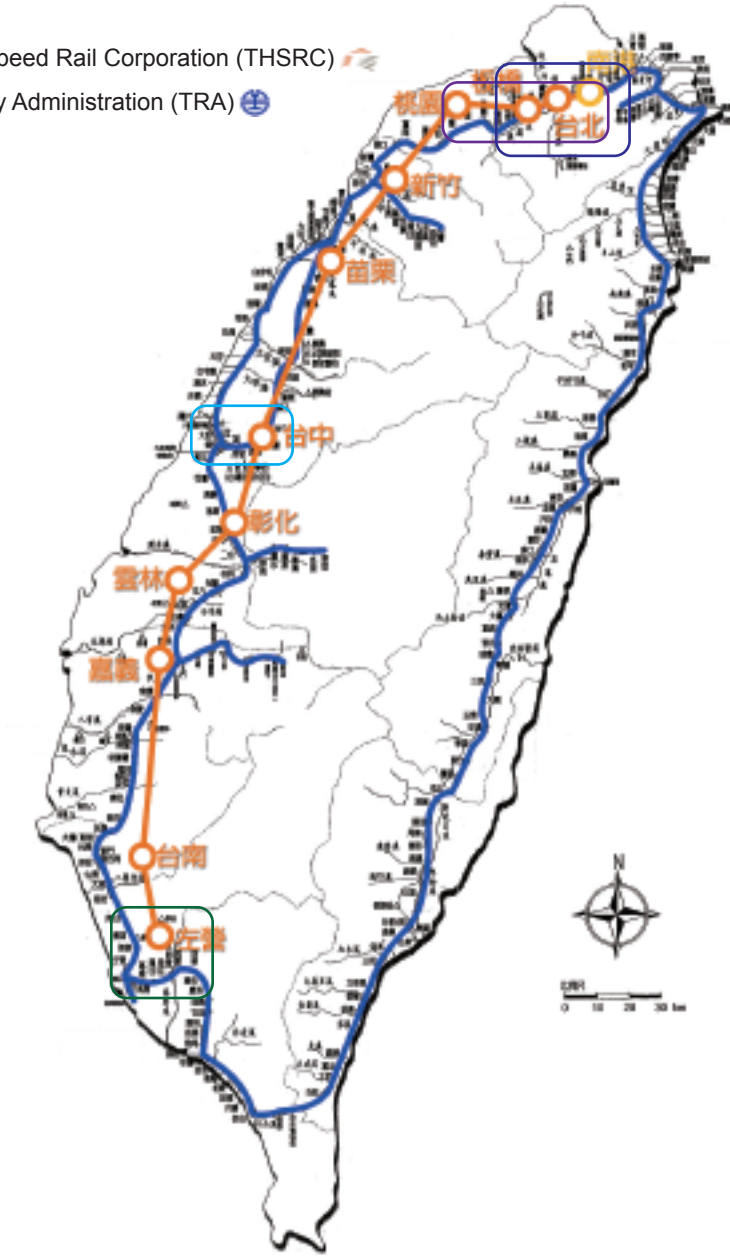

Te Lung Trading Co., Ltd., established in 1958, specializes in the marketing and servicing of rolling stock parts & products in Taiwan. Te Lung has an extensive client base including Taiwan Railway Administration (TRA), Taipei Rapid Transit Corporation (TRTC), Kaohsiung Rapid Transit Corporation (KRTC), Taiwan High Speed Rail Corporation (THSRC), Taiwan Forest Bureau as well as other focus clients of rolling stock products in Taiwan.

With over 50 years of vast experience in Taiwan's rolling stock industry, Te Lung intends to expand beyond the spare part business and include maintenance & field support service in the ever growing rolling stock market in Taiwan. Therefore in June of 2004, Teams Rail-Tech Service Co., Ltd was established to provide field support service in areas of commissioning tests, refurbishment, and other technical services.

By enhancing maintenance and field support expertise, our goal is to broaden our scope of business to allow us become a market channel for various international Rolling Stock Product Manufacturers expecting to expand their business in Taiwan. We have already invested vast resources and are very committed to be the supplier channel to all perspective rolling stock clients in Taiwan.

**Taiwan**

- Taiwan High Speed Rail Corporation (THSRC)
- Taiwan Railway Administration (TRA)

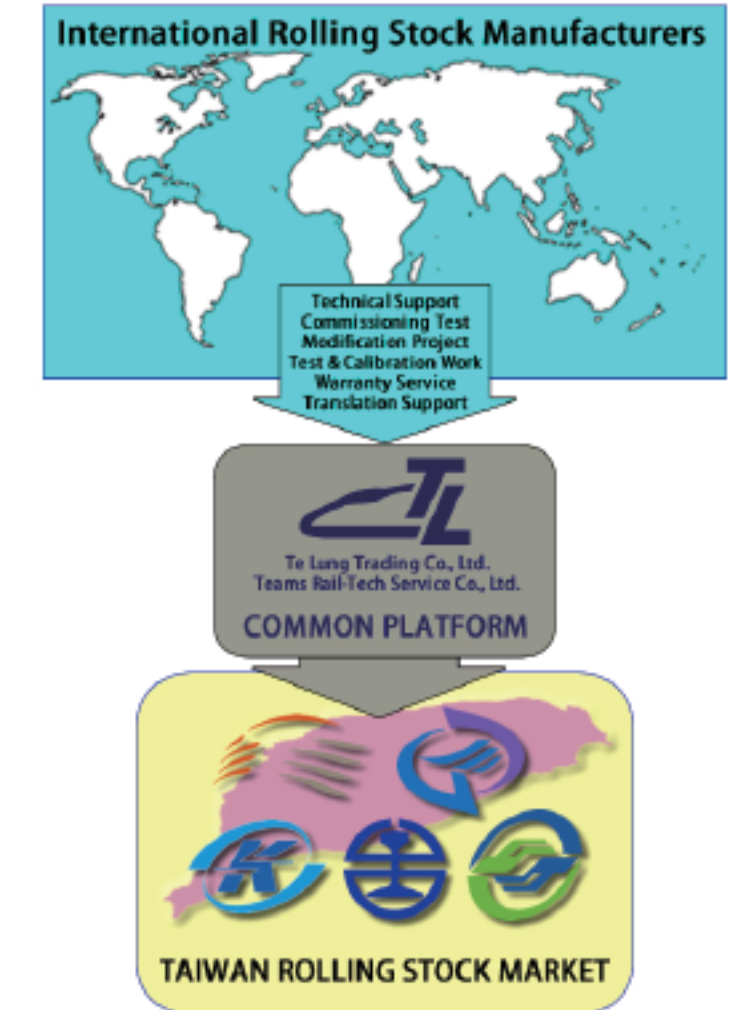

**Services**

Teams Rail-Tech Service Co., Ltd. established in June of 2004 has been interfacing between suppliers and end users with specific field of technical expertise, test & calibration, modification, commissioning test, and other technical services pertinent to Taiwan Rolling Stock market. We regularly dispatch dedicated field support specialists to Client's Maintenance & Repair Facilities to offer real-time troubleshooting and bring fast closure to the issues.

Our objective is to provide a common platform to all rolling stock suppliers expecting to establish & expand their business in Taiwan. Thru Teams Rail-Tech, this common platform intends to offer our key suppliers with:

- Direct channel to rolling stock clients in Taiwan
- Language interpretation & translation service
- Accurate and timely response to customers' enquiries
- Most cost effective way to fulfill contract of warranty
- Advanced Taiwan railway market analysis
- Highly trained & motivated support personnel
- Extensive connections and resources in Taiwan railway industry
